Enloop

Seeking two for-credit (unpaid) Computer Science/Software Engineering interns with basic Linux skills. A huge plus for any Javascript/MEAN stack/Bootstrap experience even if it's your own personal project. Potential for longer-term employment/paid internship. Work closely with the CTO to learn cutting edge dev techniques from a successful, bootstrapped SaaS. You'll receive extensive insight, training and hands-on dev experience. We're an established SaaS firm with a friendly, cozy Bernal Heights converted office.
