Job Positions:

SFSU Campus Recreation Hiring Website Content Manager
Mission Bit Hiring CS Instructors

ACM CS Tutoring

Tutoring service is one of the great resources provided by the ACM Club under Computer Science Department which is available for students ranging from freshman to senior. One can get help with their assignments and side projects by utilizing the resource available to you. Tutors are well trained in their field, therefore, they can provide you with the most efficient algorithms to get you started with the project code. With that being said, they can also help you solve critical bugs and logical errors in your code. The tutoring service will take place in the undergraduate lab (SCI254, Door password: 987654), where you can also get great exposure to the Computer Science community.

Computer Science Tutoring: The ACM club is pleased to introduce **FREE** peer tutoring this semester! ACM tutor Mitul Savani is ready to help you in your projects starting from Tuesday (09/03/2019).

Here is the breakdown of the hours and courses:

Tutoring hours:

Mon	Tue	Wed	Thur	Fri
12 pm - 2 pm	2 pm - 4 pm	12 pm - 2 pm	2 pm - 4 pm	2 pm - 4 pm

Classes Offered:
CSC210, CSC211, CSC220, CSC340, CSC413.

Location:

Science Building, Room number 254
Door Password: 9-8-7-6-5-4

Contact information:
Email: *acmtutoringsfsu@gmail.com*
Slack channel: *#acmtutoringsfsu*

Note*: Hours are subject to change

Mircrosoft Resume Reboot

Microsoft will be on campus to discuss resume tips and tricks along with successfully passing a technical interview for SFSU students. They will also talk about current employment opportunities at Microsoft. Please join us and be sure to bring your resume.

The Microsoft Resume Reboot is open to all majors, but we highly recommend Computer Engineering & Computer Science majors to participate in this event.

Event Link: https://sfsu.joinhandshake.com/events/327993/share_preview
Date: **Thursday, September 5th 12:00-2:00pm**
Location: LIB 121

Virtual Hackathons from Devpost

From cryptocurrency to AI, Facebook products and gaming on Twitch, there are so many opportunities to come up with awesome and innovative solutions! They are all virtual hackathons and no cost to enter, with cash and prizes on the line.

Not only is this a chance for participants to learn and improve skills, but also to connect with the developer community and potentially win some prizes! Please email Cassie Breen at cassie@devpost.com if you have any questions.
