

CareLinx is a digital health start-up working, creating an online caregiver marketplace that empowers families to easily find, hire, and pay caregivers for their loved ones.

We are looking for a junior designer that is ready to develop their existing skills working with a senior creative staff on a range of ambitious and innovative projects. Responsible for helping to drive the creative direction of campaign, an understanding of typography, layout, animation and art direction will be needed to help the team produce best work possible.

Background Requirements:

- Current junior or senior standing at a college or university studying Web/Graphic Design and Development, New Media Informatics, or a related program - OR - a fresh graduate looking for a part-time opportunity to expand one's portfolio and experience!
- Effective with Adobe Creative Cloud (experience in Photoshop, Illustrator and/or InDesign required - After Effects is a huge plus)
- Comfortable with PowerPoint
- Mastery of Javascript, HTML, CSS, and JSON, Ajax
- Familiarity with MVC and MVVM concepts, front-end build process, tolls, unit, and E2E testing

Qualified Candidates will Demonstrate:

- This role is graphic/visual design heavy but ideally, you'll demonstrate an Interest in performing a broad variety of design tasks (Visual Design, Presentation Design, Branding, Print, Illustration, UX, UI, etc.)
- Experience building professional PowerPoint decks and other sales collateral
- Understanding of implementing a cohesive design vision across a variety of mediums
- The willingness to challenge and be challenged, especially in the face of obscure instruction
- Excellent communication skills: justify your decisions and sell the result
- Creativity in a variety of forms
- A good sense of humor!
- The desire to hone or improve their craft, or to learn a new facet of it

When applying, please submit your portfolio for review.
